Record of 10.5L Covid tests a day

PRESS TRUST OF INDIA  
New Delhi, August 30

**WITH A RECORD** of more than 10.5 lakh tests conducted in a day for detection of Covid-19, the number of such tests performed in the country has crossed 4.14 crore, the Union health ministry said on Sunday.

The exponential jump in testing capacity and the number of tests has resulted in an upsurge in Tests Per Million to 30,044 as on date, it highlighted.

With a record 10,55,027 tests conducted on Saturday, the country has further strengthened the national diagnostic capacity of testing more than 10 lakh samples for Covid-19 daily.

The total number of tests conducted in the country for detection of coronavirus currently stands at 4,14,61,636, the ministry said.

The Centre, keeping in view the evolving global context of Covid-19, conceptualised and implemented the continuum of

A woman gives her swab sample for Covid-19 test in Guwahati on Sunday

care strategy of "test, track and treat" in close coordination with the states and Union Territories, it said.

Pivoted on the strong pillar of aggressive testing, the positive cases are identified early, which enables and ensures that their contacts are efficiently tracked in a timely manner, the ministry stated. This is followed up with prompt isolation at home or a facility setting for the mild and moderate cases, and hospitalisation for the severe and critical patients, it said.

The World Health Organiza-

tion, in its guidance note on 'Public Health Criteria to Adjust Public Health and Social Measures in the Context of Covid-19', has advised comprehensive surveillance for suspected coronavirus cases. It has advised that a country needs 140 tests per 10 lakh people every day.

All the states and Union Territories have crossed the advised number of tests. Several states have demonstrated a better performance by registering a positivity rate that is lower than the national average, the health ministry said.

MF investment in REITs jumps three fold to ₹735 cr in H1 2020

PRESS TRUST OF INDIA  
New Delhi, August 30

**EMERGING INVESTMENT INSTRUMENT:** REIT seems to be finally catching investors' fancy, with mutual funds investing a whopping ₹735 crore in such units in the first six months of 2020, nearly three-fold jump from the year-ago period.

However, mutual funds' investment in infrastructure investment trusts (InvITs) dropped by 8% to ₹4,968 crore in the period under review, data with the Securities and Exchange Board of India (Sebi) showed.

REITs and InvITs are relatively new investment instru-

ments in the Indian context but are extremely popular in global markets. While an REIT comprises a portfolio of commercial real assets, a major portion of which are already leased out, InvITs comprise a portfolio of infrastructure assets such as highways, power transmission assets.

Overall, mutual funds have increased their exposure in these investment avenues over the past one year.

Investment by fund houses in REITs jumped from a mere ₹7 crore in January 2019 to ₹71 crore in January this year and further increased to ₹402 crore in June 2020. Fund managers infused ₹735 crore in real estate

investment trusts (REITs) in January-June 2020 compared to ₹249 crore in the first six months of last year.

Harsh Jain, co-founder and COO of Growth, said lowered interest rates post coronavirus is causing more investors to hunt for higher returns in different asset classes.

"Prices in the real estate sector fell down drastically in March. Interest rates were lowered by a significant margin which is now fuelling some investment in the sector. Besides, there was a considerable rise in NRIs looking to buy property in India as well NRIs moving back to India," he added.

PRESS TRUST OF INDIA  
New Delhi, August 30

**INDIA IS ALL** set to launch the bidding process by next month for a ₹5,000-crore mega project to build six conventional submarines for the Indian Navy to narrow the gap with China's growing naval prowess, government sources said on Sunday.

The submarines will be built in India under the much-talked-about strategic partnership model that allows domestic companies to join hands with leading foreign defence majors to produce high-end military platforms in the country and reduce import dependence.

The sources said the ground-work like specifications of the submarines and other critical requirements for issuance of the request for proposal (RFP) for the mega project, named as P-75 I, has been completed by separate teams of the defence ministry and the Indian Navy.

The RFP will be issued by October, they added.

The defence ministry has already shortlisted two Indian shipyards and five foreign defence majors for the project, being billed as one of the biggest "Make in India" ventures.

The shortlisted Indian entities were L&T group and state-owned Mazagon Docks (MDL) while the select foreign entities included ThyssenKrupp Marine Systems (Germany), Navantia (Spain) and Naval Group (France).

Initially, the defence ministry will issue RFPs to MDL and L&T and the two firms will have to submit their detailed bid after receiving the document. Subsequently, the L&T and MDL will have to select a foreign partner out of the five shortlisted entities, the sources said.

The Indian Navy plans to acquire 24 new submarines, including six nuclear attack submarines, to bolster its underwater fighting capability. It currently has 15 conventional submarines and two nuclear submarines.

The Navy has been focusing on significantly bolstering its overall capabilities in view of China's growing efforts to increase its military presence in the Indian Ocean Region.

The Indian Ocean, considered the backyard of the Indian Navy, is critical to the country's strategic interests.
